These Dogs are Low Maintenance:

Watchdog Desiccant Breathers

- 96% greater filtration area than the competition
- Designed with a protective cap to reduce water splashing into the units
- Dual filtration with a two micron filter located at the top and bottom of the silica bed.
- Available in a variety of sizes to meet specific applications

Watchdog EX Series Breathers

- Excellent for high humidity and high dust environments
- Check valves protect silica gel from excess humidity allowing units to breathe in and out only when needed
- Reusable top cap allows for economic replacement of the desiccant cartridge

Watchdog R Series Breathers

- Rugged steel pipe thread capable of withstanding high vibration applications
- Reusable reinforced steel base allows for economic replacement of the desiccant cartridge

Watchdog M Series Breathers

- Made of heavy duty material for severe environments
- Silica gel bags and 2 micron filter are replaceable
- Units contain a proprietary splash guard which prevents foaming or splashing fluids from entering the breather during normal operating conditions

Protect your equipment TODAY and receive an additional 10% on all Watchdog Desiccant Breathers. Call 800.558.7008. Offer expires February 29, 2012.
